

improved performance). The research should be aimed at elucidating the physics principles of such improved toroidal magnetic power systems. Research projects are desired which are unique, first of a kind and provide new insights. Applications for research on existing large tokamaks should not be submitted in response to this notice.

DATES: To permit timely consideration for awards in Fiscal Year 1996, formal applications submitted in response to this notice must be received no later than 4:30 p.m., June 1, 1995. No electronic submissions of formal applications will be accepted.

ADDRESSES: Formal applications referencing Program Notice 95-10 should be forwarded to: U.S. Department of Energy, Office of Energy Research, Acquisition and Assistance Management Division, ER-64 (GTN), Washington, DC 20585, Attn: Program Notice 95-10. The following address must be used when submitting applications by U.S. Postal Service Express mail, any commercial mail delivery service, or when handcarried by the applicant: U.S. Department of Energy, Acquisition and Assistance Management Division, ER-64, 19901 Germantown Road, Germantown, MD 20874.

FOR FURTHER INFORMATION CONTACT: Dr. Ronald A. Blanken, Division of Advanced Physics & Technology, Office of Fusion Energy, ER-542, U.S. Department of Energy, 19901 Germantown Road, Germantown, MD 20874, (301) 903-3306 or 903-3421, or by Internet address, ronald.blanken@mailgw.er.doe.gov.

SUPPLEMENTARY INFORMATION: In selecting applications for funding, the DOE Office of Fusion Energy will give priority to applications that can produce experimental results within three to five years after grant initiation. Applications in fusion confinement concepts without closed toroidal magnetic surfaces and without significant rotational transform will not be considered under this Notice, but may be the subject of a future Notice.

This notice requests that the detailed description of the proposed project component of a complete grant application required by 10 CFR 605.9 (b) (2) should include a detailed experimental research plan which includes the specific results expected at the end of the project period. Evaluation of this written component against the selection criteria set forth in 10 CFR Part 605 will be the principal means for selecting the successful applications.

It is anticipated that up to \$5,000,000 in FY 1996 will be available to start new

projects from applications received in response to this Notice. Future year funding is anticipated to be greater but will depend on the nature of the applications, suitable experimental progress and the availability of funds. Because of the total amount of anticipated available funding and because of the intent to have a broadly based program, applications with a base yearly requirement in any year in excess of \$4,000,000 are unlikely to be funded. Evaluation against the selection criteria will be normalized on a per dollar basis so as not to favor applications of any particular size. Applications requiring yearly funding as low as \$50,000 are welcome and encouraged.

Applicants are requested to supply with their application a three page written summary (plus one page of figures) which will be read by all peer reviewers. The following sections should be included in the summary:

- (1) Goal of the experiment;
- (2) Synopsis of the experimental program plan;
- (3) Deliverable result expected (please be specific);
- (4) Adequacy of the facilities;
- (5) Adequacy of the budget (include yearly funding requested);
- (6) Discussion on why this research would have an important impact on the prospects for toroidal magnetic fusion power plants; and
- (7) Discussion of how the experiment would elucidate the physics principles of the innovation. It is expected that the review process will be completed in August 1995 and that OFE decisions will be announced in September 1995. To expedite communications, please include the principal investigator's telefax number and Internet address in Item 15 of the grant application.

Information about the development and submission of applications, eligibility, limitations, evaluations and selection processes, and other policies and procedures may be found in the Application Guide for the Office of Energy Research Financial Assistance Program. The Application Guide is available from the U.S. Department of Energy, Office of Fusion Energy, Division of Advanced Physics and Technology, ER-542, Washington, DC 20585. Instructions for preparation of an application are included in the Application Guide. Telephone requests for the Application Guide may be made by calling (301) 903-3421.

The Catalog of Federal Domestic Assistance Number for this program is

81.049, and the solicitation control number is ERFAP 10 CFR Part 605.

D.D. Mayhew,

Director, Office of Management, Office of Energy Research.

BILLING CODE 6450-01-P

Federal Energy Regulatory Commission

[Project No. 2459-005 West Virginia]

West Penn Power Co.; Notice of Availability of Final Environmental Assessment

December 28, 1994.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for a new license for the Lake Lynn Hydroelectric Project, located in Monogalia County, West Virginia, and Fayette County, Pennsylvania, and has prepared a Final Environmental Assessment (FEA) for the project. In the FEA, the Commission's staff has analyzed the potential environmental impacts of the existing project and has concluded that approval of the project, with appropriate environmental protection or enhancement measures, would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices at 941 North Capitol Street, NE., Washington, DC 20426.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5131-1]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to

the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before February 3, 1995.

FOR FURTHER INFORMATION CONTACT: For further information, or to obtain a copy of this ICR, contact Sandy Farmer at 202-260-2740.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: NESHAP for Benzene Equipment Leaks (Subpart V)—Information Requirements (ICR # 1153.05; OMB # 2060-0068). This is a request to extend the expiration date of a currently approved collection without any change in the substance or method of collection.

Abstract: Owners or operators of process units operating in benzene service (those containing or contacting fluids consisting by weight of at least 10 percent benzene) must submit an application for approval of construction or modification, and notice of anticipated and actual startup. They must monitor for fugitive benzene emissions, and must keep records of this monitoring and of any leaks detected from valves, pumps, and compressors, as well as the steps taken to make repairs. This includes a weekly visual inspection and reporting of leaks from pumps to detect outer seal failure from those pumps containing dual mechanical seals. Owners or operators must submit semiannual reports of any emissions, leaks or repairs. EPA, or the delegated State authority, uses this information to determine the compliance status of sources.

Burden Statement: The public burden for this collection of information is estimated to average 30 hours per response for reporting, and 57 hours annually for recordkeeping. The estimated reporting burden includes the time needed to review instructions, search existing data sources, gather the data needed and review the collection of information.

Respondents: Owners or operators of process units operating in benzene service (those containing or contacting fluids consisting by weight of at least 10 percent benzene).

Estimated No. of Respondents: 200.

Estimated No. of Responses per Respondent: 2.

Estimated Total Annual Burden on Respondents: 23,539 hours.

Frequency of Collection: For initial compliance and semiannually.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to: Ms. Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (2136), 401 M Street, SW., Washington, DC 20460 and Mr. Troy Hillier, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th Street, NW., Washington, DC 20503.

Dated: December 19, 1994.

Paul Lapsley,

Director, Regulatory Management Division.

[FRL-5132-6]

Public Water System Supervision Program Revision for the State of New Jersey

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Notice.

SUMMARY: Notice is hereby given that the State of New Jersey is revising its approved Public Water System Supervision Primacy Program. The State of New Jersey has adopted drinking water regulations that satisfy the National Primary Drinking Water Regulations for the Synthetic Organic Chemicals and Inorganic Chemicals; Monitoring for Unregulated Contaminants rule (Phase 2), Monitoring for Volatile Organic Chemicals rule (Phase 2B), and the Synthetic Organic Chemicals and Inorganic Chemicals rule (Phase 5). These regulations were promulgated by EPA on January 30, 1991 (56 FR 3526), July 1, 1991 (56 FR 30266) with May 27, 1992 correction (57 FR 22178); and July 17, 1992 (57 FR 31776), respectively.

The USEPA has determined that New Jersey's Phase regulations are not less stringent than the corresponding Federal regulations and that New Jersey continues to meet all requirements for primary enforcement responsibility as specified in 40 CFR 142.10.

All interested parties, other than Federal Agencies, may request a public hearing. A request for a public hearing must be submitted to the USEPA Regional Administrator at the address shown below within thirty (30) days after the date of this **Federal Register** Notice. If a substantial request for public hearing is made within the required thirty-day period, a public hearing will be held and a notice will be given in the **Federal Register** and a newspaper of general circulation. Frivolous or

insubstantial requests for a hearing may be denied by the Regional Administrator.

If no timely and appropriate request for a hearing is received and the Regional Administrator does not choose to hold a hearing on his/her motion, this determination shall become final and effective thirty (30) days after publication of this **Federal Register** Notice.

Any request for a public hearing shall include the following information:

(1) the name, address and telephone number of the individual organization or other entity requesting a hearing;

(2) a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement on information that the requesting person intends to submit at such hearing;

(3) the signature of the individual making the requests or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: Requests for Public Hearing shall be addressed to: Deputy Regional Administrator, U.S. Environmental Protection Agency—Region II, Jacob K. Javits Federal Building, 26 Federal Plaza, New, York, New York 10278.

All documents relating to this determination are available for inspection between the hours of 9:00 am., and 4:30 pm., Monday through Friday, at the following offices:

New Jersey Department of Environmental Protection, Division of Water Resources, Bureau of Safe Drinking Water, P.O. Box CN-426, Trenton, New Jersey 08625-0402

U.S. Environmental Protection Agency—Region II, Public Water System Supervision Section Room 853, Jacob K. Javits Federal Building, 26 Federal Plaza, New York, New York 10278

For further information, you may contact: Walter E. Andrews, Chief, Drinking and Groundwater Protection Branch, U.S. Environmental Protection Agency—Region II, (212) 264-1800.

(Section 1413 of the Safe Drinking Water Act, as amended, and 40 CFR 142.10 of the NPDWR)

Dated: December 8, 1994.

William J. Muszynski,

Acting Regional Administrator, EPA, Region II.
